Departments

The Town of Fishers has eight departments that report directly to the Town Manager.

- Administration Department
- Human Resources
- Clerk-Treasurer
- Development Department
- Fire Department
- Parks & Recreation
- Police Department
- Public Works Department
- Wastewater Department

Advisory Boards, Commissions, and Committees

The Town of Fishers has several boards, commissions and committees that provide guidance to the town council. Members of each body are appointed by the town council.

Boards

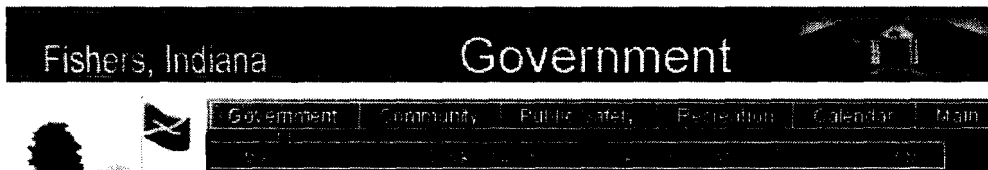

- Board of Zoning Appeals (**agendas**)
- Fishers Building Corporation
- Impact Fee Appeals Board

Commissions

- Alcoholic Beverage Commission
- Economic Development Commission
- Plan Commission
- Redevelopment Commission

Committees

- Historical Preservation Committee
- Park Advisory Committee
- Technical Advisory Committee
- Town Center Design Review Committee

Frequently Asked Questions

Can I have a fence or landscaping in my easement or the Rights-of-Way?

Easements & Rights-of-Way are portions of land set aside to conduct repairs and perform maintenance on utility lines. Homeowners may place a fence or landscaping in the easements but not in the right-of-way, however the homeowner should be aware that these may to be moved to allow for utility improvements. Fence permits are available through the Development Department. Call 595-3120 for more information on permits.

Who is responsible for mowing the easements and Rights-of-Way?

The homeowner is responsible for maintaining the easement, which includes mowing. The DPW is responsible for maintaining the rights-of-way, however if the homeowner prefers to mow

the rights-of-way, however if the homeowner prefers to mow them it will allow DPW to pursue other projects.

Who is responsible for sidewalk maintenance?

Most of the sidewalk maintenance is the responsibility of the adjacent property owner. Contact the Department of Public Works at 595-3160 for more information. Responsibility varies depending on specific situations.

Does the Town provide mosquito control?

The Town of Fishers does not provide mosquito control measures however, private pest control services do provide mosquito control.

Who picks up stray animals?

The Fishers Police Department has an animal control officer. Contact the Police Department at 595-3300. If the animal is dead in a roadway, contact DPW at 595-3160.

Where can I recycle in Fishers?

Most solid waste carrier companies have curbside recycling available. Contact your local carrier.

Who do I call if a street light is out in my neighborhood?

Cinergy/PSI maintains most of the streetlights in Fishers, call 1-800-521-2232.

When will my street be plowed?

Streets are plowed based on priority and amount of snowfall. DPW strives to keep all thoroughfares clear, safe, and open to traffic during snowfalls. Once the thoroughfares are clear & safe, then subdivision through streets are cleared, followed by cul-de-sacs and non-through streets.

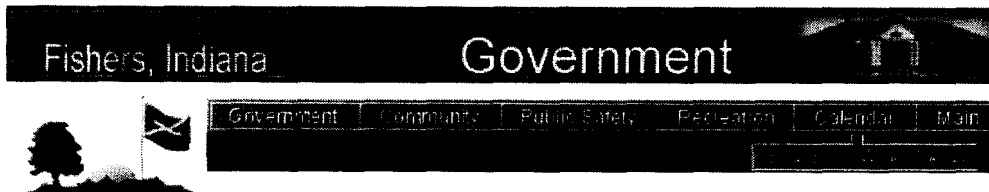

Who do I contact for Adopt-a-Road information?

Contact Kim at 595-3160 to request more information or an application.

What if my question isn't listed?

Contact DPW office at 595-3160, office hours are 8:30 a.m.- 4:30 p.m., Monday through Friday, after hours voicemail 595-3400 x 8060 or by e-mail at garsnettk@fishers.in.us.

Wastewater Department

[Summary](#) | [History](#) | [Process](#) | [Design Data](#) | [Facility Description](#) | [Goals Statement](#)

Treatment Summary

The treatment consists of natural biological functions and mechanical processes that work on a continuous flow-through basis, improving the waste stream to an environmentally-safe effluent, discharged into the east fork of the White River.

[\(top\)](#)

Project History

1997 brought the beginning of a \$5.8 million expansion to address the continued growth demand upon the Town of Fishers. The rapid growth increased the population from 2,008 in 1980, to 27,360 in 1997. To match this growth, the existing treatment facility underwent two expansions: the first in 1987, the second in 1991.

During this time designs were being finalized for a new treatment facility. Because of site limitations, the old facility could not be increased in capacity, rendering it unable to meet the rapid growth demands of Fishers.

The new facility was built at one million gallons per day (mgd) capacity, with the ability to expand to more than 12 mgd. This new plant design allows for expansion with minimal site disruption, and maximum cost efficiency. It will continue to meet capacity needs as Fishers' population grows.

The new treatment facility also allows the old treatment plant to be closed. This creates a significant operational cost reduction, while still treating more wastewater.

[\(top\)](#)

Process Description

There are six basic phases of treatment.

Phase I: Pretreatment - paper, plastic and grit removal.

Phase II: Primary Treatment - reduces solids, BOD (Biochemical Oxygen Demand) for the aeration in Phase III.

Oxygen Demand) for the aeration in Phase III.

Phase III: Secondary Treatment - aerated activated biosolid process to complete the reduction of pollutants in the waste stream.

Phase IV: Final Clarification - solids separation from the finish water with a solids return system.

Phase V: Disinfection - ultra-violet light exposure for cell destruction.

Phase VI: Waste Biosolid Stabilization - N-viro Soil, an alkaline stabilization process to create a Class A reusable material.

[\(top\)](#)

Design Data

Design Flows

- Average: 4.0 mgd (million gallons per day)
- Peak Daily: 6.0 mgd

Design Raw Wastewater Characteristics

- Biochemical Oxygen Demand (BOD): 175 mg/l (milligrams per liter) Total Suspended Solids (TSS): 210 mg/l Nitrogen (NH₃-N) 25 Mg/l

Effluent Quality Limits

Characteristic	Summer Limit	Winter Limit
Biochemical Oxygen Demand	20 mg/l	25 mg/l
Total Suspended Solids	24 mg/l	30 mg/l
Ammonia	3.3 mg/l	8.5 mg/l
Dissolved Oxygen	> 4 mg/l	> 4 mg/l
ph	6 - 9	6 - 9
E-coli	125/100 ml	NONE

[\(top\)](#)

Facility Description

1. Headworks

The inlet structure and the grit tank. Raw wastewater is screened with two mechanical fine screens, each rated at 4 mgd. The downstream grit tank removes the heavy material which is then pumped into the grit classifier. All material is disposed of in an authorized landfill.

2. Primary Clarifiers

2. Primary Clarifiers

Two 120-foot by twenty-foot tanks with a design detention time of 2.21 hours. This process can remove up to sixty percent of the suspended solids. All solids that are settled out are immediately removed for final alkaline stabilization. The solids are pumped by two single-diaphragm pumps that operate twenty-four-hours-a-day at a predetermined stroke rate.

3. Secondary Treatment

Four aeration tanks. Each tank capacity is 378,000 gallons and allows for 9.3 hours of detention time. This is the point at which bacteria consumes the remaining raw waste. Oxygen levels are maintained by centrifuge blowers forcing air through fine-bubble diffusers.

4. Blower Building

Six centrifuge blowers, powered by 75hp motors, each able to produce approximately 1,200 cfm (cubic feet per minute) of air.

5. Final Clarifier

Two eighty-foot diameter tanks each rated at 4 mgd with a detention time of 5.5 hours. The clarifiers create a quiescent zone which allows solids to settle to the bottom, while treated water flows over collection weirs. The settled solids are withdrawn from the bottom and are either returned to the aeration tanks or removed from the process as waste-activated sludge.

6. Disinfection

Ultra-violet lights are used for cell destruction to kill any remaining bacteria or microorganisms in the discharge flow. Post-aeration begins immediately afterward. The flow is cascaded down a series of concrete steps.

7. Sludge Holding Tanks

Two 100,000-gallon tanks. The material removed from the primary clarifiers, and the waste-activated sludge are held in these tanks and aerated while awaiting final disposal. Sludge may be thickened prior to storage by using a two-meter gravity belt thickener.

8. Waste Biosolid Stabilization

N-viro Soil alkaline stabilization is used for solids preparation to a Class A reusable material. This process blends three waste materials: sludge, cement kiln dust, and a bulking agent. It produces a synthetic soil material that has many useful applications. It can be used as an agricultural line substitute with nutrients, or as soil remediation or in reclamation. The process incorporates four main areas of the plant site:

- a. *Press Building* - houses two two-meter belt press thickeners for sludge preparation.
- b. *Blending Room* - the three waste products are blended for biosolid stabilization.

blended for biosolid stabilization.

- c. *Windrow Building* - the N-viro Soil process requires that the material is "windrowed", or turned over several times during a seventy-two-hour period.
 - d. *Storage Pad* - finished N-viro Soil material is stored here awaiting final market distribution.
- 9. Administration/Laboratory Building
houses administration offices and the laboratory facility.
 - 10. Maintenance Building
plant and lift station facility.

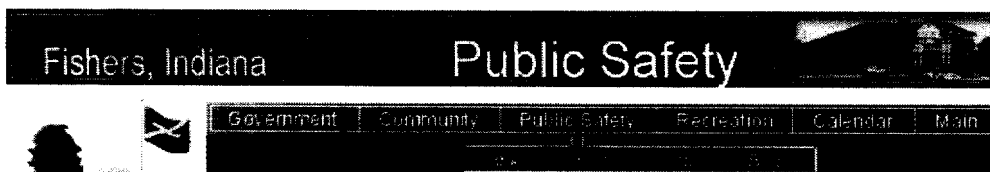

([top](#))

Key Goals Statement

To receive and treat all wastewater for the Town of Fishers. Treatment must be within minimum acceptable standards, according to the Indiana Department of Environmental Management, Permit Number IN0055484. This facility strives to achieve the highest water quality possible so that the effluent discharge is of benefit , not detriment to the environment.

Fishers Fire Department

Chartered March 14, 1955, the Fishers Community Volunteer Fire Department (FCVFD) contracted with the Town of Fishers and Fall Creek and Delaware Townships for fire and EMS protection. The residents

Fishers Fire Department Station #1

of Fishers volunteered their services for 33 years before turning the operations over to the town. Due to the fast paced growth of the Town of Fishers, all parties involved felt this change was essential to maintain the professional service residents had been accustomed to over the years.

The Town of Fishers fire chief is Brian Lott.

The Fire department phone number is: **(317) 595-3200.**

For Fire and Ambulance Emergencies, please call 911.

Station Locations

Station #1	2 Municipal Drive
Station #2	11595 Brook School Road
Station #3	10501 Allisonville Road
Station #4	10701 Cumberland Road

In 1988 the first career personnel were hired. Today, there are 73 full-time and 15 part-time firefighters/emergency medical technicians, 25 volunteers, and 4 civilian staff members.

We currently have three stations . One new station should open this fall. The Town of Fishers continues to contract with the two townships.

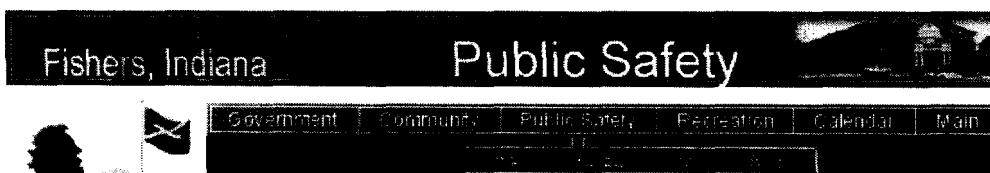

FCVFD remains a fund-raising arm of our department and supports special projects such as our fire prevention group, M.C. Axe and the Fire Crew.

MC Axe and Crew

MC Axe & Crew are real crowd pleasers with their own brand of rock and roll entertainment.

Fishers Police Department

Crime Watch | Business Crime Watch | Bicycle Patrol | Mobile Data Terminals | D.A.R.E.

Fishers Police Headquarters

Under the guidance of Town Marshal George Kehl, the Fishers Police Department employs 49 sworn police officers and five civilian staff members.. The department is located in the Thomas A. Weaver Municipal

Complex at One Municipal Drive. The switchboard number is 317-595-3300.

Crime Watch

The Fishers Police Department Neighborhood Crime Watch Program started in 1994. There are currently 26 active neighborhoods covering nearly 3500 homes. The program is designed to increase and encourage communication between neighbors and the Fishers Police Department. Any neighborhood interested in starting a Neighborhood Crime Watch Program should call the Fishers Police Department at 317-595-3300.

[\(top\)](#)

Business Crime Watch

Business Crime Watch is a new program for the Fishers Police Department. Businesses in the community will now be able to have the same resources that the neighborhoods have available. Business Crime Watch will notify businesses of crime trends and current criminal activity. Businesses participating in the program will receive a Fishers Police Department Business Crime Watch sticker for their entryway. Businesses interested in registering for Business Crime Watch should call the Fishers Police Department at 317-595-3300.

[\(top\)](#)

Bicycle Patrol

The Fishers Police Department's Bicycle Patrol Officers are once again patrolling the neighborhoods in Fishers. The police department has up to four bicycles patrolling the neighborhoods at one time. The officers generally work during the evening hours. Be sure to stop one of the officers and say hi! If you would like more information about the bicycle patrol, please contact the

like more information about the bicycle patrol, please contact the Fishers Police Department at 317-595-3300.

[\(top\)](#)

Mobil Data Terminals (MDT)

Technology in law enforcement is increasing everyday. The Fishers Police Department now has in-car Mobil Data Terminals. The MDT's are computers installed in each patrol car to assist the officer in identifying criminal activity. The MDT's are an officer safety tool that will notify the officer if a car or a person is wanted by law enforcement before the officer makes the traffic stop. The in-car computers are just one of the ways the Fishers Police Department stays up-to-date with technology. If you would like more information on this subject, please contact the Fishers Police Department at 317-595-3300.

[\(top\)](#)

D.A.R.E.

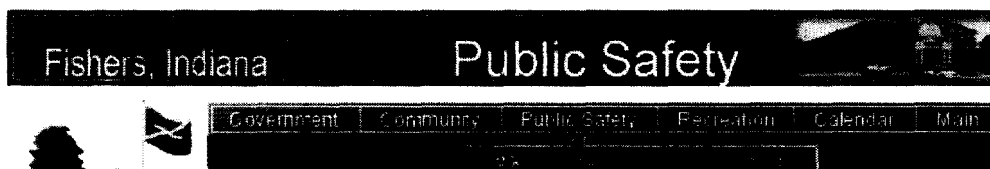

The Fishers Police Department DARE Program started with Hamilton Southeastern Schools in 1991. The curriculum is taught at the fifth grade level and at the eighth grade level. The department is also looking into the high school curriculum so that the students will be exposed to the message the DARE program teaches three times before graduation from high school. If you want more information about the DARE program, please contact the Fishers Police Department at 317-595-3300.

Fishers Police Officer Gerry Hepp provides WISH-TV reporter Ann Marie Tiernon with important information about breaking news in the Fishers area.

Parks & Recreation The Benefits are Endless! ™

Established in 1990, the Parks & Recreation Department was developed to address the growing needs of town residents, and to work with citizens to establish amenities that a variety of people can enjoy. Working with the Park Advisory Committee, the department has established seven parks with a variety of uses.

Currently under construction is Fishers Heritage Park at White River at 106th Street and Eller Road. The most recent additions to the town's inventory of parkland are Brook's School Park and Billericay Park. We are excited about obtaining an additional 45 acres of parkland in 1999, as we continue toward our goal of providing outstanding recreational facilities for Fishers' citizens.

Mission Statement

The Town of Fishers is dedicated to providing residents with safe, progressive park facilities driven by the wise use of green space; to offering recreational activities and events through public and private partnerships; and to enhancing the quality of family life, the feeling of neighborliness, and the sense of community--in accordance with the high expectations of Fishers residents.

[\(top\)](#)

Multi-Use Path System

In 1992, the Town of Fishers adopted a plan to build a network of paths. The system will consist of more than 91 miles of multi-purpose paths and sidewalks designed to provide pedestrian and bicycle trails when complete. It will connect parks, schools, neighborhoods, retail areas, work places, community facilities, and other unique attractions. The trail plan is currently divided into two segments: an 8.2 mile unpaved portion made of wood chips and cinders, and an 83.4-mile portion made of asphalt or other hard surface. Currently, more than 20 miles of trail are complete. [Click](#)

Ongoing Programs

Aerobics Classes are held by the YMCA on Mondays and Wednesdays from 7:00pm - 8:00pm at the Roy G. Holland Memorial Park (formerly Community Park). Call 317-595-9622 for more details.

Christmas Tree Recycling is available for residents at holiday time. There is a drop off site for live Christmas trees. All wrapping and wiring should be removed from the trees before bringing them to the site. The mulch is not available for private use.

Kumon Math and Reading Courses are being held on Wednesdays from 4:00pm - 7:00pm and on Fridays from 4:30pm - 7:30pm at the Roy G. Holland Memorial Park (formerly Community Park). Call 317-595-3155 for more details.

Summer Camp is for preschool children (ages 3 - 6) and youth (ages 7 - 12). Camp begins the first week of June and lasts through the first week of August. For more information or to be placed on the mailing list, please call 317-595-3155.

Parks

Fishers has established five parks with a variety of uses. Click [here](#) to find a list of parks and recreation events.

[\(top\)](#)

Park Advisory Committee

The Fishers Park Advisory Committee is a body of seven citizens that provides recommendations to the Town Council regarding new park projects and programs. They help ensure adequate facilities for S.P.O.R.T.S. (Southeastern Program of Recreational Teams Sports) which organizes the youth recreational sports in the area including softball, basketball, soccer, and football.

Picnic Shelters and Community Building Rentals

The building and shelters are available for almost any gathering, providing that park rules are followed during the event. Call 317-595-3155 to learn more about renting park facilities.

If you're looking for the perfect place to hold that special event or larger gathering, consider the Roy G. Holland Memorial Park Building. It has a capacity of 80 persons and has tables and chairs available for set up.

If an outdoor picnic or cookout is more your style, the picnic

If an outdoor picnic or cookout is more your style, the picnic shelters at Roy G. Holland Memorial Park or at Harrison Thompson Park are also available for rent.

Playground Safety

Working closely with the National Recreation and Park Association, the National Playground Safety Institute, and the National Playground Safety Program, the Parks & Recreation Department is keeping abreast of the latest trends and industry standards for playground safety. Receiving high praise from the National Program for Playground Safety and its spokesperson, the town's playgrounds continue to surpass industry safety standards. Since 1997, the town has had a certified playground inspector on staff dedicated to this goal.
